

Assignment: You have been asked to write an essay defining a particular familial relationship in Sophocles' *Antigone*, based on evidence from the text.
Method: You will need to articulate two theses in order to develop your argument. This grid will help you generate your interpretation. You may use it two ways: 1] by printing two copies of the grid, and using one for each thesis, or 2] by color-coding the evidence you generate as you interpret this familial relationship. See also *Handbook*, "Defining Terms" (41-43) and "Using the Grid (103-104)."
